Re: In the Matter of Application for Certificate of Convenience and Necessity,
NNTRC Docket No. 11-0001

Dear Mr. Tagaban:

Please find enclosed on behalf of Navajo Pillars Telecommunications, Inc. (“Pillars”) a petition (“Petition”) requesting the issuance of a certificate of convenience and necessity (“CCN”) contingent upon the adoption by the Navajo National Telecommunications Regulatory Commission (“NNTRC”) of a final CCN application and associated rules and a demonstration of compliance with such application and rules by Pillars.

Attached to the Petition as an exhibit is the CCN application Pillars submitted to the NNTRC in March of 2013. Certain information in the Petition consists of some of Pillars’ most commercially and proprietary sensitive information, the disclosure of which would place Pillars at a significant competitive disadvantage. Accordingly, Pillars has submitted a redacted and unredacted version of its Petition. The unredacted version of the Petition is marked as “Confidential Information – Not For Public Disclosure,” while the redacted version of the Petition is marked a “Redacted Information – For Public Review.”
